

FORUM MANAGEMENT COMMITTEE MEETING

2nd October 2019

PLANNING AND ENVIRONMENT GROUP REPORT

No new major planning proposals have been notified to me this period and we are continuing to monitor those applications received applicable to our area. All applications received are no going, as requested, to all Committee chairman as well as the Planning Group.

Sadly, despite a major oral and written intervention by Barry Nicholl, the appeal regarding Beck Lane was granted in favour of the developer. Their activity from hereon in will be monitored closely.

The input from the Heritage Group to all applications is invaluable, although some development within our area relating to heritage sites or buildings are not opposed when undertaken sympathetically with the structure or surroundings.

No environmental issues have been brought to me or I have come across, but members should advise me if there is anything that requires an input from ourselves.

Richard Goad.
